

# TLC-SP *Side-shift Shredder weight model*

The universal TLC-SP flail mower is a machine used for shredding grass and pruning of vineyards and orchards. The mechanical or hydraulic transversal displacement (max 40 cm) allows the employment both in normal and in decentralized position, to approach to plantings, to orchards, etc. The machine is provided with a connecting plug with three points, a rear opening cover that facilitates the inspection and allows a better release of the tilled material. It can be used with any kind of tractor, both caterpillars and farm tractor.
